Steve,

Would you have anything to add to or change on this fact sheet? Mathy apparently has to testify early next week and wants an update. The last I heard, ATF still controlled the site, but there were rumors that they were going to release it to other agencies. I am not really in the loop on what is going on down there real time. Is EPA still doing any response work at the site? Can we update some of the dated info in the first two paragraphs?

If you could reply to all I would appreciate it!

Thanks!

Jim

Hi Lisa, Rob, Josh –

Are there any updates that we can provide for the West Texas plant fact sheet? Thanks.

Hi Efi,

Could you please check to see if the West Texas fertilizer plant fact sheet is still current or if it needs to be updated at all? If it needs updates, please let us know by 3 pm today.

Thanks!
Mike
